Bourns Adds New ESD Protection Product CDNBS08-SR112

Bourns is pleased to announce the release of a new ESD protection product.

The [CDNBS08-SR112 Steering Diode Array](#) in an NSOIC-8 package is a device using “rail to rail clamping” steering diodes, offering the designer 5 pF capacitance and ESD/EFT/Surge protection on six communication data lines.

The product data sheet with detailed specifications can be viewed on the Bourns website at www.bourns.com. Pricing is already in the 2009 Price Book. For further application support, please contact:
